

# ST Math Steps to logon!

For math at home you can login to <https://web.stmath.com/entrance/> Your student will need to allow access for the flash player. Then they will answer if they are onsite or offsite. Make sure they choose lab work if the choice is offsite. Then it will prompt them for their password and they should be logged in.

They may need to enter the activation code if the homework screen appears. Please have them click on the activation code box if you see that screen in the lower right hand corner. The activation code is **top603-lkc-q6-gwy**. Then they will follow the steps above.
